CURRENT APPROACH ON PHARMACOLOGICAL ISSUES IN DAILY PRACTICE

Panitia Pelantikan Lulusan Dokter
Universitas Indonesia 2018-2019

bekerja sama dengan

Departemen Farmakologi dan Terapeutik
Fakultas Kedokteran Universitas Indonesia

mempersiapkan

C A P S U L E
CURRENT APPROACH ON PHARMACOLOGICAL ISSUES IN DAILY PRACTICE

KATA PENGANTAR

Seorang dokter harus mampu menguasai 144 penyakit hingga tingkat penatalaksanaan. Namun, *guideline* penatalaksanaan penyakit selalu diperbaharui secara berkala sesuai dengan *evidence-based*. Sekitar 120.000 dokter di Indonesia harus selalu mampu mengenyam ilmu terbaru agar bebas dari misterapi. Kesalahan dalam terapi dapat menyebabkan hal-hal tidak diinginkan, misalnya tuntutan malpraktik, resistensi antibiotik, dan lain sebagainya.

Current Approach on Pharmacological Issues in Daily Practice (CAPSULE) hadir menjawab tantangan tersebut. Melalui seminar ini, diharapkan dokter Indonesia mahir melakukan penatalaksanaan farmakologi secara tepat. Bersama CAPSULE, kita meningkatkan kualitas dokter Indonesia untuk masa depan.

PANITIA

PELINDUNG

**Dekan Fakultas Kedokteran
Universitas Indonesia**

Dr. dr. Ratna Sitompul, Sp.M(K)

Koordinator Kemahasiswaan

dr. Akhmadu, Sp.B(K)V, Ph.D

PENANGGUNG JAWAB

**Departemen Farmakologi
Universitas Indonesia**

dr. Vivian Soetikno, Sp.FK, Ph.D

**Ketua Badan Eksekutif Mahasiswa
IKM FKUI**

Yosilia Nursakina

**Ketua Pelantikan Lulusan Dokter
2018-2019**

Haryo Prakoso Adhi Purwanto, S.Ked

Ketua Panitia Pelaksana

Ferry Liwang, S.Ked

Sekretaris & Bendahara

Fatira Ratri Audita, S.Ked

Seksi Acara

Dyah Ayu K. Buwono, S.Ked

Seksi Dana

Hardya Gustada, S.Ked

Seksi Logistik

Yasmina Zahra Syadza, S.Ked

Rezza Mahandhika, S.Ked

Seksi Publikasi dan Dokumentasi

Nobian Andre, S.Ked

Seksi Registrasi

Kartika Laksmi, S.Ked

Mengapa CAPSULE?

Bingung memilih
obat tepat

Kebiasaan vs rasionalitas

Tidak ada seminar/
Pendidikan kedokteran
berkelanjutan terkait
farmakologi

**Apa yang dikatakan
berbagai jurnal?**

“High rates of inappropriate antibiotic use in hospitals, the community, and animals are key drivers of the crisis”

Ann Intern Med. 2016; 165:812-3

“The approaches should be mindful of any potential unintended consequences and should share a strong overarching goal to ensure access to effective antimicrobial therapies for this generation and for the future.”

Lancet. 2016; 387:176-87

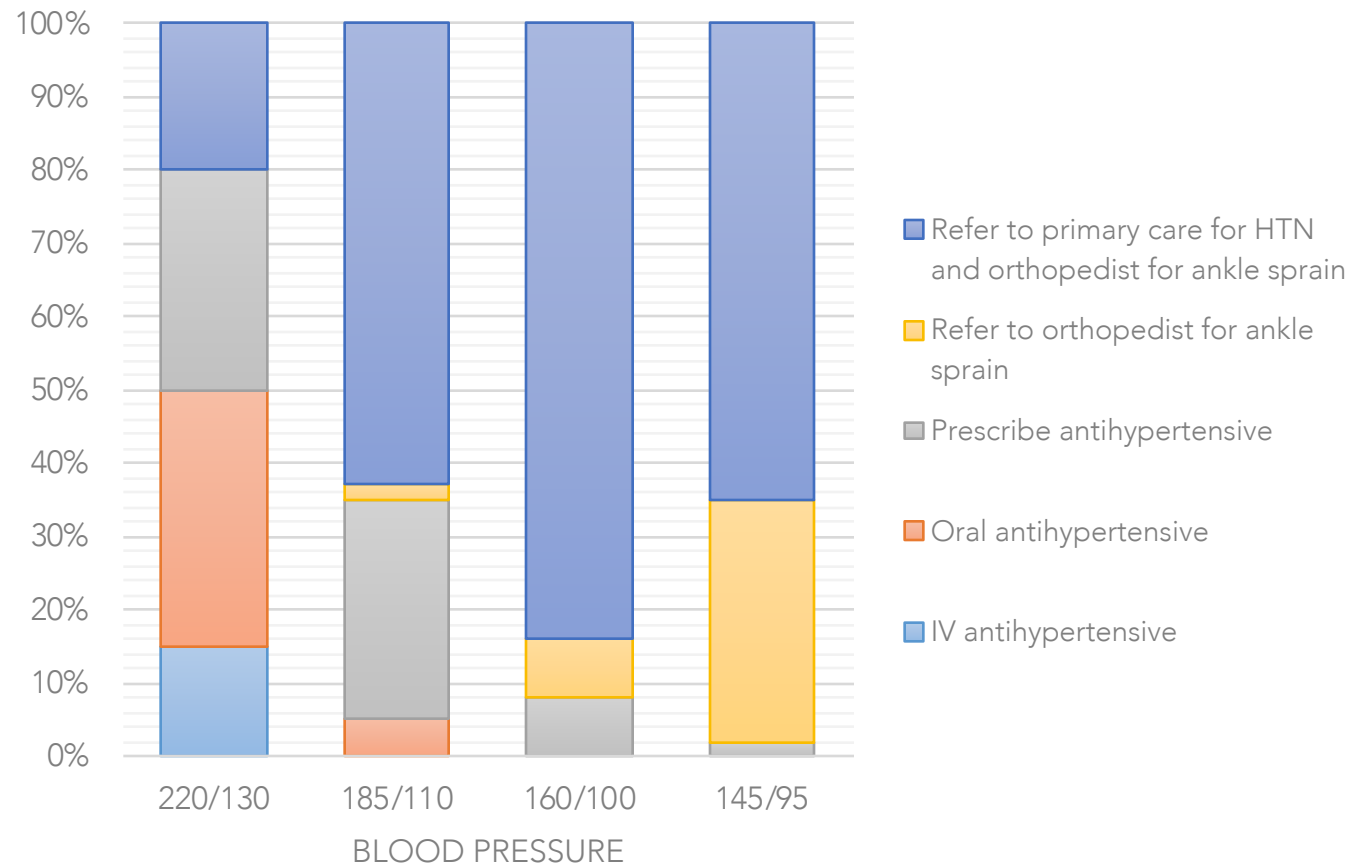

General practitioners' knowledge about use of topical corticosteroids in pediatric atopic dermatitis in Australia

From 257 GPs surveyed, **one-third** (40.7%) instructed to apply topical corticosteroids for two weeks or less, **nearly half** (47.7%) instructed sparingly or with the smallest amount possible, and **nearly one-third** (30.2%) reported skin atrophy.

Aust Fam Physician. 2016; 46(5):335-40

“Dietary and Herbal Supplements (DHS) users reported that **Primary Care Physicians were more aware** of DHS consumption than Hospital Physicians (70.1% vs. 34.1%, $P < 0.0001$). A significant barrier for in-hospital disclosure is doctor-related.”

Patients Educ Couns. 2017; 100(1):98-103

“Despite an existing clinical policy statement from the ACEP, there is still wide variability in EP approaches to patients with asymptomatic HTN”

J Clin Hypertens. 2016; 19(3):265-9

Lumire Hotel and Convention Center

Sabtu, 21 Oktober 2017

Jalan Senen Raya No. 135, Jakarta Pusat

SUSUNAN ACARA

07:30 – 08:30 Registrasi ulang

08:30 – 08:45 Pembukaan acara

08:45 – 09:00 Pre test

SEMINAR

Sesi I Principles of Antibiotics
09:00 – 10:30
Medicolegal Aspects of Pharmacotherapy

Rational Use of Vitamin Supplements

10:30 – 11:00 Coffee break

Sesi II Pharmacotherapy of Allergy

11:00 – 12:30

Pain Management

Pharmacotherapy of GERD

12:30 – 13:30 ISHOMA

12:30 – 13:30 ISHOMA

WORKSHOP

Sesi III Management of Rhinosinusitis

13:30 – 15:00

Corticosteroid in Dermatology

Pharmacotherapy of Asthma

15:00 – 15:45 Coffee break

Sesi IV Pharmacotherapy of DM with Comorbidity

15:45 – 16:45

Pharmacotherapy of Antihypertensive Agents

16:45 – 17:00 Post test

17:00 – 17:15 Penutupan
